

These are Homeschool Help Desk originals created by me, Kayleigh Garcia. As it is with every **HHD** original, this download is 100% free and always will be. I'm not creating and sharing materials to get rich, sure I could use some extra cash, who couldn't right? But that's not why I'm doing this! When I say I just want to help homeschoolers as much as possible, I mean it.

Share this and anything else you get from my sites as much as you want. The more you share the more people that receive help.

I have no issue with you altering most of what you find on the site, in fact I do my best to offer DIY versions of everything I make so you can customize it to better suit your children and homeschool journey. I do ask that you not remove my site information from anything you share., keep it on so others can find help there as well. Please, help me reach more people seeking help, do NOT remove the site info.

I know currently my site isn't fancy, since I offer everything free I am using the free web builder plan. If I accumulate a significant following I will upgrade the site to offer more materials and use the ad feature to help my followers even more by doing a give away once a month. I will use proceeds from the ads for prizes in the form of gift cards, school supplies, and more.

The site is already loaded with so many things to help homeschooling in so many ways but I don't plan on stopping or slowing down and I can only go so far with a free web builder plan. I would love to upgrade the site so I can offer even more. So if you like what am I'm doing here, please, help me continue to do it and to keep improving. **SHARE** the site link & info! Spread the word, help it grow so I can keep helping make your homeschooling journey a bit easier and maybe even little more fun!

If you find any typo's or errors in anything please leave a comment, send a message, or e-mail me at [thehomeschoolhelpdesk@gmail.com](mailto:thehomeschoolhelpdesk@gmail.com)

Thank you,

*Kayleigh Garcia*
